ABOUT SOUTH CAROLINA FOREST PRODUCTS

Did you know...?

• Based on 2020 data, forest contributes more than \$23.2 billion annually to SC's economy and represents one of the state's leading manufacturing sectors in terms of jobs (100,133) and labor income (\$5.5 billion).

• Sawlogs are the state's leading forest product by volume, and production increased 24% to 390 million cubic feet between 2020 and 2021. Sawlogs are South Carolina's most valuable forest product by sector, accounting for \$572 million (~49%) of delivered timber value

- Timber volumes and growth remain at record levels and continue to increase, offering opportunities for expanded mill
 production, growth in job numbers, and improved landowner financial returns.
- Roundwood harvested from South Carolina forests increased 16% between 2020 and 2021, to 884 million cubic feet.
- In 2021, international sales of forest products from South Carolina were valued at \$1.04 billion US dollars. Compared against 2020, they represent an increase of 8.9%, with pulp and paper continuing to be the main drivers of economic activity.
